Team: Group C
Course: 223RSEG-176-1 : Cloud Computing
Assignment 1: Group Skills/Availability Summary (Team Charter)

Purpose

This team will focus on building out a custom CRM / messaging tool with a front-end app granting users the ability to upload and schedule an email to send to recipients.

Members

    - happinessk@brandeis.edu

    - Skills
        - Design
        - Mapping
        - Testing
        - Prototyping
        - Synthesizing data
        - Frontend development

- Mike Siebenaler, Meeting Facilitator
    - msiebenaler@brandeis.edu

    - Skills
        - Full Stack Development
        - Windows/Linux
        - Docker
        - Some interaction with
            - AWS S3
            - AWS RDS

Team communication

We will sign-in daily at 9pm or later for check-in to provide updates and collaborate. We will use Google Meets/Latte chat to communicate, when possible.

How you will resolve conflicts

If conflicts occur, we will focus on the following:

- Practice active listening
- Differentiate between intent and impact
- Discuss conflicts openly.
- Find solutions together.
